Triware Network Systems Announces Completion of IT Network Infrastructure for Crystal Springs Upland Schools

Tuesday December 01, 2009 - 11:42 AM EST
Business Wire News Releases

Released By Triware Network Systems

Triware Network Systems (TNS), a leading Information Technology network service and support provider, today announced the completion of its modernization and complete re-architecture of Crystal Springs Upland School's (CSUS) IT network infrastructure. TNS worked with CSUS's staff to relocate and modernize the school's aging equipment by designing along with Cisco Systems a network that would meet and exceed the school's IT needs for the next 3 to 5 years. The company additionally is providing on-going service and support, on-site IT outsourcing and strategic IT assistance to detect any problems with the network, server hardware, operating systems, server applications and network environment before they even occur.

"One of our first major tasks was to relocate and modernize CSUS's data center and equipment. A more equipment friendly environment was identified, new cooling installed and we equipped everything on the newly designed network with uninterrupted power supplies," said Benson Yeung, senior partner for Triware Network Systems, L.L.C. "We believe the new re-architected network infrastructure we have installed positions the school nicely for future IT expansion services."

"TNS had the experience we needed to ensure that our newly refurbished network infrastructure is not only technically equipped with the most advanced features but totally secure," said Dr. John Venuti, director of technology for CSUS. "The TNS staff and engineers are very professional and we are confident with Triware Network's 24/7 monitoring service (Service & Support Operation Center or SSOC) that our system will continue to perform without any issues."

Crystal Springs Uplands School is an independent, coeducational, college preparatory day school for grades 6-12 with a student body of 350. Founded in 1952, the school is located on a beautiful 10-acre suburban campus on the San Francisco peninsula in Hillsborough, California. CSUS endeavors to equip students with a feeling of joy in lifelong learning by encouraging individual leadership, cooperative interaction, intellectual risk-taking, and a respect for one's self and for the view of others. For more information, please visit www.csus.org.

Headquartered in Santa Clara, CA, Triware Network Systems, L.L.C. is a leading computer network related service & support provider covering the San Francisco Bay Area. TNS has been highly successful since founded in March 1991, with 100% of its business originating from referrals.
