

Triware Network Systems

Newsware™

Letter From The Editor:

Welcome to Triware Network Systems monthly Newsware, bringing you the latest in Information Technology. In this issue, as promised, we are covering Payment Card Industry (PCI) Data Security Standard. This article introduces some basic information and requirements regarding PCI. PCI like many other security related issues, there isn't a simple answer for the issues. Please also feel free to e-mail us with helpful links, upcoming events, topics you'd like to learn more about & questions for our engineers. Thanks!

Information Security & Privacy Regulatory Compliance: Payment Card Industry (PCI) Data Security Standard – No Silver Bullets...

The PCI security standards council has created a document, “10 Common Myths of PCI DSS,” which helps to highlight the main elements involved in implementing any security program and which debunks many of the myths surrounding information security. The first myth this article discusses is the one that in information security, there can be found a “silver bullet,” a single product that can provide any institution with total coverage in terms of their information security. Unfortunately, this silver bullet does not exist...
