

Triware Network Systems

Newsware™

Letter From The Editor:

Welcome to Triware Network Systems' twelfth monthly Newsware, bringing you the latest in Information Technology. This month's featured topic is Social Engineering. The damages caused by Social Engineering is vastly under reported and understood. We hope to share what we know & how to prevent ourselves being a victim. Again, please feel free to e-mail us with helpful links, upcoming events, topics you'd like to learn more about and questions for our engineers. Here at TNS, we like to wish you happy holidays & have a prosperous New Year.

Digital Information Age Deception - Social Engineering

According to estimates by the U.S. Federal Trade Commission (FTC), social engineering-related issues cost individuals and businesses approximately \$52.6 billion in 2004, & much of that cost is borne by businesses. Since many incidents of individuals or organizations being victimized by social engineering are not well publicized, it may not be an issue that many people think seriously about. But, whether we are aware of it or not, the issue is widespread, and it affects about 10 million Americans each year.
