

Triware Network Systems

Newsware™

Letter From The Editor:

Welcome to Triware Network Systems' monthly Newsware, bringing you the latest in Information Technology. This month's featured white paper is Voice & Speech Recognition. A technical challenge to the advancement of computing usage. Please also feel free to e-mail us with helpful links, upcoming events, and topics you'd like to learn more about & questions for our engineers. Thanks for reading!

Introduction To Voice & Speech Recognition

The entire subjects of voice & speech recognition are often confused and the terms are often misused. Knowing what's being spoken is very different than knowing who is speaking. Voice recognition focuses on who is speaking it (a synonym for the speaker – a way we can recognize one speaker from another) and the speech recognition concentrates on what is being spoken...
